SUSTAINABILITY DEPARTMENT

CIRCULAR: EHS/GB/07/15

TO : All Business Units Of Dubai World, Their Clients , Green Building Consultants, Architectural & Engineering consultants, Contractors and relevant stakeholders

SUBJECT : Unification and Simplification of Green Building Forms & Procedures

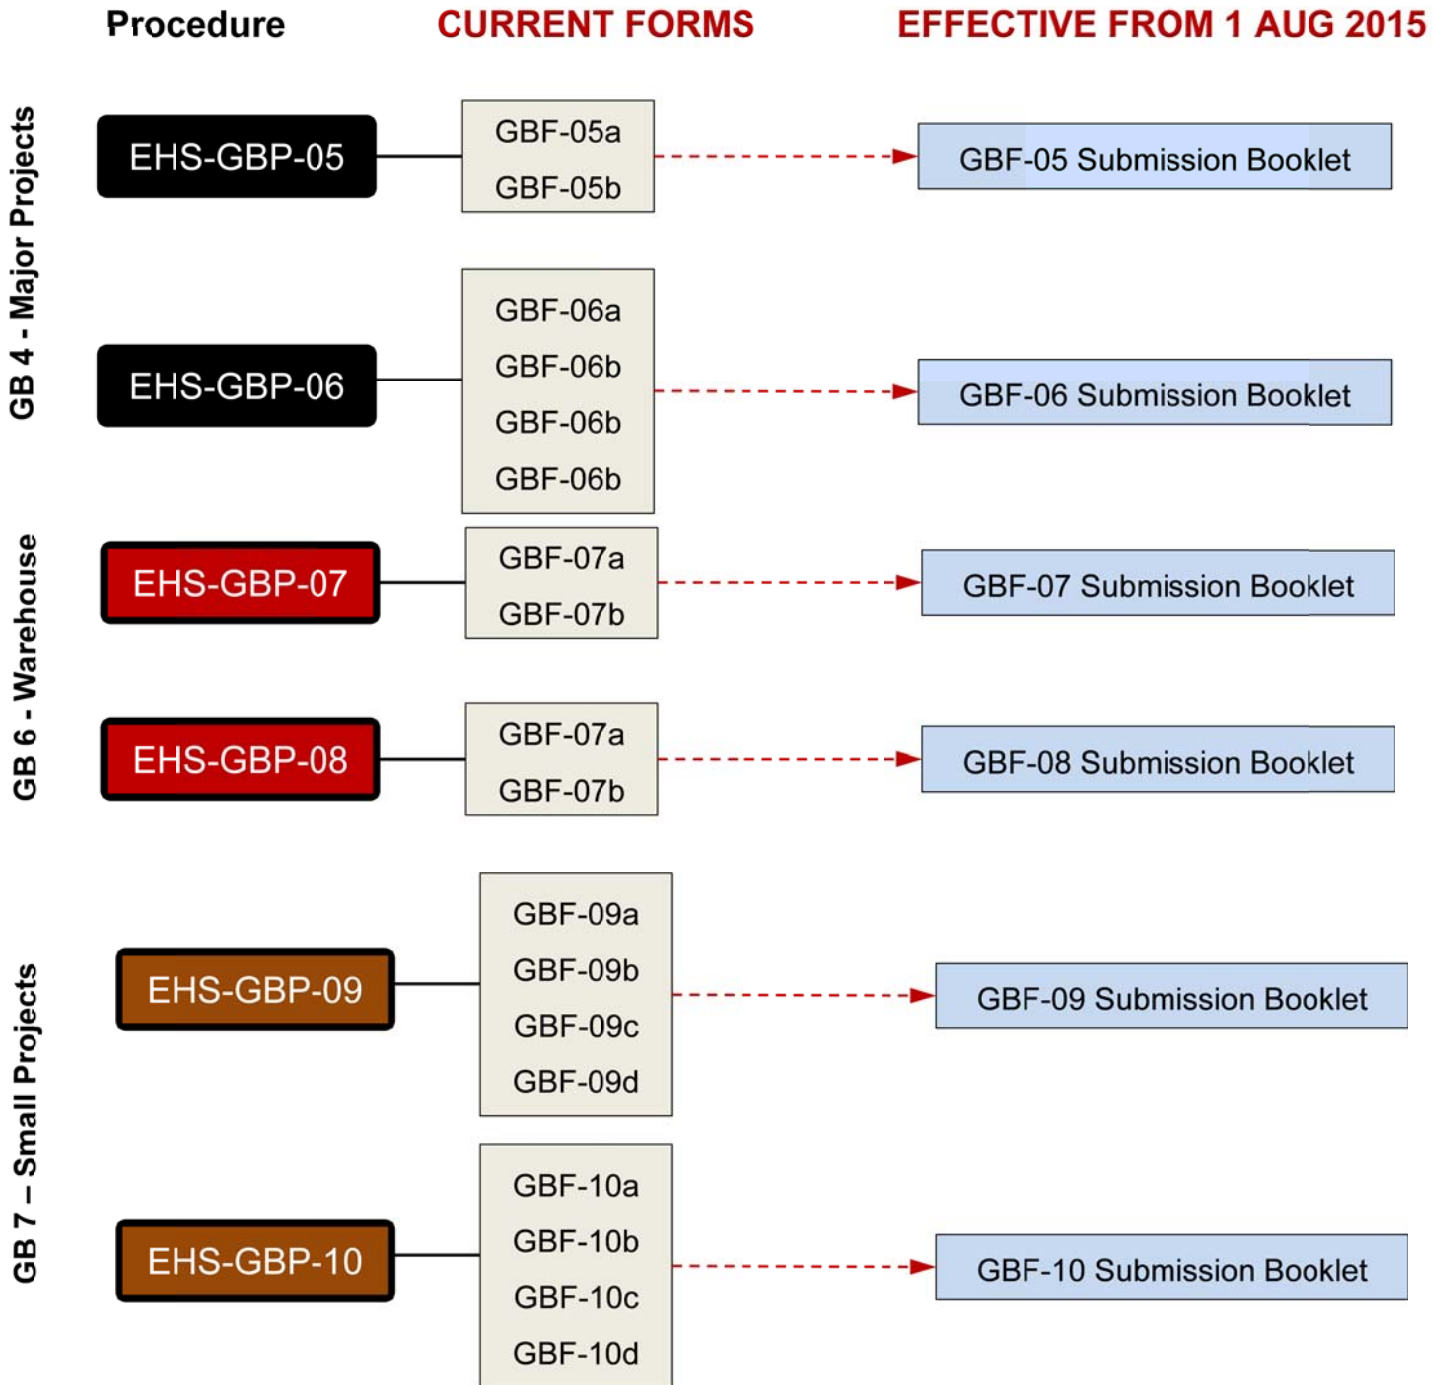

DATE : 12 July 2015

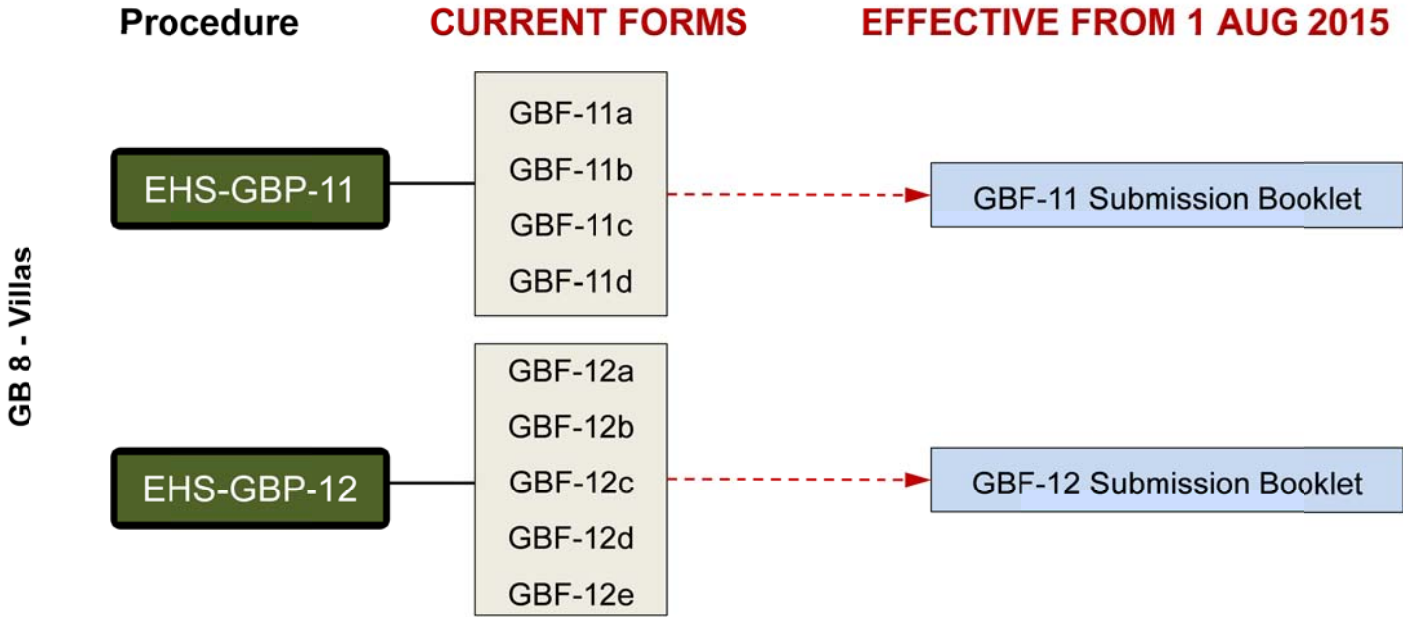

Greetings from EHS!

As part of its ongoing efforts to streamline and simplify green buildings related client procedures, the Sustainability department has incorporated changes to its forms and procedures which are detailed below. These revised documents would come into force effective from 1 August 2015.

S.No	Nature of Changes	Reasons
1	Revision to EHS-GBP-3 , Procedure for Ascertaining EHS Green Building Regulations A single consolidated table replaces the original version that comprised chart, table and notes.	It is a part of simplification initiative to bring transparency and simplicity to the stakeholders
2	Revision to Forms . Individual forms of a green building procedure have been consolidated into a single submission booklet	It is a part of simplification initiative

The forms in their current versions and the proposed ones are highlighted below along with the Regulation and the procedure they are related to.

We believe this would result in simplicity to the stakeholders while still retaining ALL the requirements of the procedure.

These booklets would be uploaded shortly and as mentioned at the beginning would be **effective from 1 August 2015**. The forms being replaced would be removed from the portal and would cease to exist from 1 August 2015.

EHS-Trakhees is committed to providing quality regulatory services to our business units and clients in protecting the environment, human health and safety. As always, we look forward to your suggestions, cooperation, support and a very successful working relationship.
